

2018 and Prior NFCA FREE WEBINAR SERIES

All NFCA Webinars recordings and slide presentations are available in the [“Members Only”](#) Section at www.NFCA-online.org.

"Fireproofing 101" Back to the Basics Part II

December 6, 2018 - UL Special Topics - Determining the best thicknesses, Primed Steel Guidelines and Patching Guidelines. Presented by Phil Mancuso, Senior Technical Services Manager, ISOLATEK INTERNATIONAL. In the second part of our Back to the Basics Series, we will cover how to make sure you are using the best possible thicknesses by gaining deeper understanding of W/D & A/P ratios, and steel joist criteria. We will also touch on primed steel and patching guidelines.

"Fireproofing 101" Back to the Basics Part 1

October 31, 2018 - How to Select a UL Design - Join NFCA and Phil Mancuso, Senior Technical Services Manager, ISOLATEK INTERNATIONAL, as we go Back to the Basics. Learn how to select the appropriate UL Design based on a given criteria. This will cover floor-ceiling & roof-ceiling assemblies, beams, joists and columns.

"Fireproofing Patching & Building/Fire-Codes"

September 27, 2018 - SFRM and IFRM Fireproofing call for 'complete encasement' of the building elements in Building Codes. In existing buildings, fire-resistance needs to be maintained to keep continuity of protection for fire and life safety in buildings. Patching SFRM fireproofing to maintain continuity takes place usually after many building services are in place. This webinar will cover code requirements and also equipment used to patch SFRM Fireproofing in new and existing buildings. Presented by NFCA Executive Director Bill McHugh & Graco's Danny Carrillo, Business Development Manager for ToughTek Mortar Equipment.

"Best Practices & Overall Equipment Safety"

May 15, 2018 - Join NFCA and Lowell Knott (LK), Technical Services, Hy-Flex Corp., as LK covers the topics of Electrical Repair, Material Hose Selection, Hydraulic System Maintenance, Rotor/Stator Maintenance, Ball Stop Pin Wear and more!

"UL Fire Resistance Testing & What it Means to You"

January 23, 2018 - Luke Woods, Principal Engineer, Fire Resistance and Containment, UL, presents "UL Fire Resistance Testing & What it Means to You", Beams, Columns, Walls and Firestop Head of Wall Joints.

2017, 2016 and 2015 below ...

2017 and Prior NFCA FREE WEBINAR SERIES

All NFCA Webinars recordings and slide presentations are available in the [“Members Only”](#) Section at www.NFCA-online.org.

“Fireproofing Injection Systems”

November 15, 2017 - Join NFCA as Carol Schary, President & Owner and Valentin Esaulenko, Technical Manager, Nathan Kimmel Company, present Fireproofing Injection Systems. Carol and Val will cover benefits of injection, system setup, injection system operation, maintenance and troubleshooting.

“Silica Part II”

September 28, 2017 - Eric Potorski, National Sales Manager, Ruwac, will take you step by step through the new silica standard. Covering everything from exposure limits, methods of compliance specific to fireproofing material, respiratory protection, housekeeping, medical surveillance, and record keeping. An overview of the steps required for OSHA compliance, made simple. Get the facts!

“Part I Silica - Understand the Issue”

June 14, 2017 - Silica's health effects on the workforce, the OSHA Standard coming in September, and the compliance expectations for contractors on the job site. Presenter Hilarie Warren, MPH, CIH, Georgia Tech Safety and Health Consultation Program, presented this topic at the 2017 NFCA Conference in Atlanta. This webinar will provide an explanation of the issue and what OSHA will require from contractors. Presentation available in Members Only.

“NFCA Top 10 List Continues”

May 17, 2017 - HSS Beams/tube steel - how do you fireproof? Dealing with cement-based materials and alkyd primers? Determining additional thickness for beams with rated walls. Thanks to John Dalton, GCP Applied Technologies and Phil Mancuso, Isolatek International, for another well done NFCA Webinar.

“Situations in Fireproofing”

February 2, 2017 - Join NFCA and Phil Mancuso, Technical Services Manager, ISOLATEK INTERNATIONAL, as Phil discusses how to deal with situations that may arise with your fireproofing project. Spanning gaps; cold weather applications; roof future floor (insulation over unprotected floor deck), and what information you need to know in order to determine protection on trench headers and electrical inserts.

2016 and Prior NFCA FREE WEBINAR SERIES

All NFCA Webinars recordings and slide presentations are available in the [“Members Only”](#) Section at www.NFCA-online.org.

“Lath Materials & Applications”

December 14, 2016 - Presented by NFCA Members: Chris Little, Clark Dietrich Building Systems, and Sean Younger, Carboline. Chris and Sean will discuss Lath Materials - types, how they are made, ASTM, applications and fire rated requirements for commercial, industrial and other uses.

“Thermal Barriers”

November 16, 2016 - Join NFCA and John Dalton, GCP Applied Technologies. The many different test standards and code requirements have created a confusing array of products and systems that claim to provide a thermal barrier for foamed plastic. This webinar will try and clarify what is needed, what is acceptable and what is not.

“How to Build a Successful Safety Policy”

Sept. 14, 2016 - How to Build a Successful Safety Policy presented by Roger Tickner, Tickner & Associates, Richmond Hill, Ontario.

“Substitution of Beams”

August 31, 2016 - Join NFCA and John Dalton, GCP Applied Technologies, as John discusses substitution of beams from beam-only designs into assemblies.

"Top 10 List" continued from Dallas”

May 11, 2016 - Presented by: John Dalton, GCP Applied Technologies; Phil Mancuso, Isolatek International; and Bill McHugh, NFCA Executive Director. Topics: 20 Ft. Rule - Ways to deal with cold weather application - How to compete with noncertified products.

2015 and Prior NFCA FREE WEBINAR SERIES

All NFCA Webinars recordings and slide presentations are available in the [“Members Only”](#) Section at www.NFCA-online.org.

“NFCA Year End Webinar”

December 18, 2015 - Bill McHugh, Executive Director, National Fireproofing Contractors Association (NFCA), will give an overview of NFCA’s Contractor Accreditation Program for IFRM and SFRM. He will discuss the upcoming training, the process and how the program will benefit your company. Bill will also talk about NFCA’s 2015 progress and what to look for in 2016 from NFCA and the fireproofing industry.

"SAFETY" for Fireproofing Contractors

October 8, 2015 - Frank Marino, CSP, Vice President of Safety Check, Inc., discusses current views from OSHA and OSHA Can, fireproofing scaffold safety, fall protection and more. Frank’s insights on Safety for many construction industry trades has been well received and well respected.

“Fireproofing Special Inspections & Contractor Compliance”

August 11, 2015 – Listen in and learn as Bill McHugh, NFCA Executive Director, discusses important information all contractors should know about the new changes in the IBC 2009, 2012, 2015 Chapter 17 Special Inspections.

“Equipment Maintenance”

June 10, 2015 - Hy-Flex Corporation's Lowell Knott (LK) and his associates cover best practices and 'tricks of the trade' for maintaining equipment efficiently. NFCA thanks Hy-Flex for this technical material.
